---

Tools required:
- 2.5 mm Allen wrench / 17 mm spanner
- 14 mm spanner / Flathead screwdriver

1. Remove the axle cover.
2. Remove the left adapter.
3. If there is an axle cover instead of the adapter, spread it out with a flathead screwdriver.
4. Undo the fixing screw for the play adjustment ring nut.
5. Remove the play adjustment ring nut.
6. Remove the axle and the body from the hub.
7. Retrieve the cone pusher, the left cone and the right cone.
8. Prepare the components of the kit to be fitted.
